

Finger Print Patterns ID Card

WHORLS

PLAIN WHORLS

CENTRAL WHORLS

DOUBLE WHORLS

This section is titled 'WHORLS' in a vertical black box on the left. It contains three groups of fingerprint examples. The first group, 'PLAIN WHORLS', shows three fingerprints with circular, concentric ridge patterns. The second group, 'CENTRAL WHORLS', shows three fingerprints with a central core that spirals outwards. The third group, 'DOUBLE WHORLS', shows three fingerprints with two distinct whorl patterns on the same finger.

ARCHES

PLAIN ARCHES

TENTED ARCHES

This section is titled 'ARCHES' in a black box at the top. It contains two rows of three fingerprints each. The first row, 'PLAIN ARCHES', shows fingerprints with ridges that rise and then fall in a wave-like pattern. The second row, 'TENTED ARCHES', shows fingerprints where the ridges rise to a sharp, pointed peak.

LOOPS

RADIAL LOOPS

ULNAR LOOPS

This section is titled 'LOOPS' in a black box at the top. It contains two rows of three fingerprints each. The first row, 'RADIAL LOOPS', shows fingerprints where the ridges enter from one side and exit on the same side towards the thumb. The second row, 'ULNAR LOOPS', shows fingerprints where the ridges enter from one side and exit on the same side towards the pinky.

ACCIDENTAL

This section is titled 'ACCIDENTAL' in a vertical black box on the left. It contains three examples of fingerprints that do not fit into the standard categories of whorls, arches, or loops. These patterns are irregular and unique.
